

Homework

Policy

The use of homework within the college learning program is at the discretion of the professional opinion of the teacher administering the curriculum. The college will have guidelines in place to promote communication and to clearly define expectations for students and the school community.

Guidelines – Primary Students

Students will be set between 15-45 minutes of homework per school evening.
Students will be working on summative projects that require additional resources and time.
Parents are encouraged to engage with students in discussions about their work but they are reminded of the importance of academic integrity in the learning process.

Guidelines – Secondary Students (7-10)

Students will be set between 45-90 minutes of homework per school evening.
Students will be working on summative projects that require additional resources and time.
Expectations, grading matrixes and required resources will be communicated in class.
Parents are encouraged to engage with students in discussions about their work but they are reminded of the importance of academic integrity in the learning process.

Guidelines – Senior Secondary Students (11-12)

Students will be set between 90-180 minutes of homework per school evening.
Students will be working on summative projects that require additional resources and time.
Parents are encouraged to engage with students in discussions about their work but they are reminded of the importance of academic integrity in the learning process.
