Hi, I'm Michael Gouldy. I'm the principal of the Australian Christian College here at Singleton. It’s my great pleasure to be able to talk to you during this short video about the sorts of things that this school is capable of achieving for your child. One of my great passions as a teacher is to be able to work with children to improve their literacy and numeracy. I bring that passion with me as principal to this college. What we can do with your child is to work with wonderful teachers in a cohesive environment to bring the best out in your own child.

When you visit our teaching team web page you’ll find that our teaching staff are quite diverse. However they are all committed Christians and also very professional in their approach. This means that they couple their own faith along with a very professional way of dealing with your children.

As you known, technology is a big part of everyday life. Here at Australian Christian College in Singleton, we embrace that technology, so that it can be used here in our classrooms and also by you at home and we work collaboratively together using this technology so that your child can get the best outcomes. We have excellent teachers here in the high school who can help your child achieve to the best of their abilities but being part of the Australian Christian College network of schools, we also have access to fantastic teachers on other campuses who can deliver subjects through an online learning platform, meaning that your child has a wider access of subjects that they can choose from.

While we are a private school, our fees are very affordable, but on top of that when you enroll your child into Australian Christian College, you will receive a complementary uniform. One of the things that you'll notice when you come here to our school is that strong sense of family. I invite you to come and visit us as soon as you can.
